Language

- *English*
- *Hindi*
- *Odia*

Experience

- Currently no prior experience as I am at the beginning of my journey. Learning through structured courses and deep conceptual exploration, with a strong emphasis on mastering fundamentals. Naturally Curious and consistent in effort, I enjoy breaking down problems and steadily improving my analytical thinking.
- My short-term goal is to become job-ready as a data analyst and work on meaningful, hands-on projects. I'm open to learning opportunities and internships where I can grow, apply my skills, and learn from real industry exposure

Projects

- **Personal Finance Dashboard**

  https://pranamchand.github.io/dashboard-project/

  Built an interactive dashboard to track and analyse personal expenses Used Excel to clean, organize, and visualize financial data Implemented slicers and charts for dynamic filtering and insights Helped identify spending patterns and improve financial decisions

Hobbies
